Acceptable File Format

PDF with all fonts and high-resolution images embedded. Ensure that all elements are a minimum of 300 dpi and 100% in size.

Proofs

Ads submitted will not be provided an additional proof unless requested. We offer this service for an additional \$50. There is an opportunity to review your supplied ad at the time of upload on our ad portal.

We want your Ad To Print Correctly

Late ads with problems or last-minute changes increase the chance of print error. Please make every effort to deliver your materials on time and to our specifications.

Common Ad Problems to Avoid:

- Please check your ad for these errors before uploading:
- Incorrect dimensions
- Text outside the live area (allow 1/4 inch at least, 1/2 inch preferred)
- Non-bleed ads that bleed (and vice versa)
- Low-resolution images
- Images not converted to CMYK
- Spot color/PMS used in the color space
- Position marks or color bars in the live area (suggested both crops and bleed marks be off to .125" or more)
